↑ CUSTOM BY RUSHTON RECLAIMED WOOD PLANTERS

Custom builder and remodeler Randy Rushton works with reclaimed materials and architectural antiques to create custom furnishings for indoors and out. This planter was crafted from the inner hub of a large cable spool and the legs of an outdated woodstove. Patterns carved on the side make each one unique. Fill it with potting soil and plants, or drop a pre-planted container into it. Mr. Rushton also makes planters and garden boxes from discarded cedar fencing and reclaimed redwood. All pieces are built to order with recycled materials, so you can get exactly what you need to enhance the beauty of your deck, patio, or garden.
